

Call for members to join the YWPK Education & Career workgroup

In 2020 the IWA World Water Congress & Exhibition will be held in Copenhagen Denmark. The Young Water Professional network in Denmark (YWPK) is identifying legacies leading up to, culminating at, and building on the conference and conference outcomes. YWPK has established an IWA 2020 group and identified three pillars for the group to work with towards 2020: (1) Education & Career, (2) Outreach and (3) Capacity Building.

The YWPK IWA 2020 group is seeking members who would like to be engaged in the **Education & Career workgroup**. The first task will focus on building an action plan and identifying key stakeholders for collaboration in the water sector. The overall vision of the workgroup is to establish the water sector as an appealing place to work in order to attract the workforce of tomorrow, targeting multiple stages of education and young professionals just entering the sector.

The workload is expected to vary depending on the engagement of the individual member and of the workgroup. We will organize a meeting early 2018 with the purpose of establishing the **Education & Career** group, getting to know one another, agree on expected workload, initiate the development of an overall strategy and action plan as well as options for the organization and structure of the workgroup.

If you are interested in being part of the YWPK's Education and Career initiatives for the IWA World Water Congress & Exhibition in 2020 please contact Thor Danielsen at education@ywp.dk.
