Dear Young Water Professionals,

We are proud to send out the invitation to our 5th YWPK Conference 2019!

Following the same line as in the previous years, this year's program will contain technical talks, workshops and soft skill training, as well as excursions to sights of interest. Additionally, the program has plenty of room for socializing with your fellow young water professionals.

This year the conference is hosted by Skanderborg Forsyning, which will be the host the 7th and DANVA, which will be hosting on the 8th of March 2018.

We are looking much forward to the 5th conference, when the YWPK once again will be exploring new knowledge, while enjoying each other's company in the continuously growing network of YWPK.

See you all very soon!

On behalf of YWPK,

The conference team
